Supplies for ready-made clothing industries / other industries

Marking tapes and ink ribbons

A perfect printing result, appropriate resistance and best washing results – this is what the appropriate printing system provides in perfect combination with the ink ribbon and marking tape. Especially in ready-made clothing industries there are high standards on the labels. We have the right solution for you or work out the customed solutions with you!

Polyester-satin tape (PS)

Polyester-satin tapes are used particularly for producing washing resistant care labels and are suitable for sewing in subsequently. They are supplied in various qualities. Choose from our wide range of white and coloured polyester-satin tapes.

- roll length: 100 m / 200 m
- standard widths: 25, 30, 35, 40 and 50 mm, others on demand

Application area: ready-made clothing

Quality	Material	Colour
PS05	standard, very soft	white and black
PS06	reinforced	white and black
PS08	with selvedge, for printing on both sides	black
PS11	for printing on both sides	white
PS12	single-coloured tapes, for printing on one side	24 different colours available *

e. g. yellow, pale blue, grey, golden, creamy, green, champagne, orange, purple, red, cherry, pink, peach, ivory

Nylon-taffeta tape (NT)

Nylon-taffeta tapes are used particularly for producing washing resistant care labels and are suitable for sewing in subsequently.

- roll length: 200 m
- standard widths: 25, 30, 35, 40 and 50 mm, others on demand

Application area: ready-made clothing

Quality	Material	Colour*
NT01	smooth surface	white
NT02	coarse surface	white
NT08	very smooth surface	white
NT11	very smooth surface	white

*NT-tapes are also available in colour. Ask for an individual offer!*

Polyester-taffeta tape (PT)

Polyester-taffeta tapes are used particularly for producing washing resistant care labels and are suitable for sewing in subsequently. They are supplied in two different qualities on a roll in various widths.

- roll length: 100 m / 200 m
- standard widths: 30, 35, 40 and 50 mm, others on demand
- PT 01: soft and smooth surface, suitable for printing on both sides, white
- PT 02: very firm, with a smooth surface, suitable for printing on both sides, white

Application area: ready-made clothing

Coloured computer tape for belt marking (GB)

ThermoTex coloured computer tape for belt marking is especially suitable for marking lashing straps. The tape is very hard-wearing and robust. The labels are very UV-, weathering- and abrasion-resistant.

- roll length: 50 m
- very sharp printing quality and highly resistant print
- tape for sewing in
- standard widths: 20, 25, 30, 35, 40 and 50 mm, others on demand

Application area: ready-made clothing

Quality	Colour	Quality	Colour
GB2010	yellow	GB2015	pink
GB2011	blue	GB2016	pale green
GB2012	orange	GB2017	brown
GB2013	dark green	GB2018	rose
GB2014	red		

Computer marking tape for thermal transfer printers: CT2066

This marking tape is especially suitable for printing name tags for clothes or printing barcodes. The tape is supplied on a roll and is available in different widths.

- quality: CT2066
- material: for sewing / printable on both sides
- standard widths: 50 mm

Application area: ready-made clothing

Computer marking tape: CK2006-N-D

The computer marking tape is suitable for printing name tags and care labels or for the production of wash and cleaning-resistant labels.
It is also suitable for sewing.

- available on rolls in different widths
- material: for sewing / printable on one side
- thinner material

Application area: ready-made clothing

CK2006-N

- thicker material

NT41P

- extremely abrasion resistant material
- suitable for sewing and heat seal

! Please note: We also supply ready-made care labels for sewing!

The wash resistance should be tested further through your own washing procedures (see T & C ThermoTex, § 3-4)!
