

SATURN

Laundry management software

**SATURN – the simple and user-friendly
laundry management program**

An even simpler and faster sorting

With the laundry management software SATURN

Wherever a lot of laundry items have to be washed and to be sorted when incoming and outgoing, ThermoTex offers with SATURN the practical and easy to operate laundry management software. SATURN is the coordination center of your ThermoTex universe for professional textile management. As the graphics illustrates, all data come together here so that you can have a complete overview of the registered laundry items at any time.

In **residential and nursing homes, facilities for disabled or small laundries with residents' clothing**, SATURN is your coordination center for your improved laundry logistics.

Just have a look on the back to see, which SATURN package would suit best to your demands.

More overview, easier procedures, optimized processes – SATURN performs all this for you.
