

LAUNDRY WORKFLOW

COMPETENCE IN LAUNDRY LOGISTICS AND IDENTIFICATION

Increase the satisfaction of your residents and your employees with an in-house laundry. We as a system provider, together with you, will find efficient solutions to create secure processes in order to reduce your costs. Enjoy the freedom that your own laundry can provide!

FOR EACH APPLICATION

- complete solutions from a single organization (system-based provider)
- practicality based solutions
- user-friendly technologies and machines
- Expert Staff available for both Office and Field based advice and service

We look forward to advising you on a one to one basis!

LAUNDRY WORKFLOW IN RESIDENTIAL NURSING HOMES

BENEFITS OF YOUR OWN LAUNDRY

INDEPENDENCE
An in-house laundry means having it available at all times and at short notice. Choose, implement and process your laundry according to your own wishes, and therefore make it your showpiece.

HYGIENE
An interaction of individual washing programs and certified washing procedures guarantees a level of hygiene in accordance with current standards.

QUALITY
Perfectly maintained quality linen is a calling card of your business. You can therefore easily and reliably keep a check on your laundry quality.

ENVIRONMENT
Thanks to modern technology, your in-house laundry operates in a resource-saving manner. Short transportation routes are both environmentally friendly and time-saving.

PROFITABILITY
Lower external costs and optimise staff workloads. With your own laundry you can keep a constant eye on costs.

SUSTAINABILITY / VALUE RETENTION
In your laundry you will work sustainably and will be future-oriented. Thanks to the longer life cycle of your laundry items, they will keep their value longer.
