

THERMOTEX 

EMBLEMS

AND TRANSFER PRESSES FOR EVERY USE

EMBLEMS

OUR EMBLEMS ARE A PROMISE

THERMOTEX emblems stand for high-quality marking of workwear, protective clothing, rainwear and promotional, sport and leisure clothing with your own corporate design! No matter what your taste or the area of application – you are spoilt for choice with the THERMOTEX emblem portfolio.

EMBLEMS / TRANSFERS

The logos are directly transferred onto the textile. It is usually produced as a transfer without background – but also possible with background colour, it depends on the motif.

TRANSFER PRESSES

This is what awaits you:

- ☐ ideal solution for garment manufacturer and designers for the sportswear and work wear
- ☐ two large working stations for efficient and quick working
- ☐ ideal for coping with large working volumes
- ☐ convenient preparation of textiles for the heat sealing process

TRANS PRESS 20

WITH TWO WORKING PLATES

- ☐ Connection: 230 V, 50 Hz, 2000 W
- ☐ Width: 958 mm (with lower plates)
- ☐ Height: 712 mm
- ☐ Deepness: 885 mm
- ☐ Space required: 770 x 700 mm
- ☐ Size of upper plate: 480 x 380 mm
- ☐ Weight: 110 kg

Trans Press 20

Art. no. 20000

Your benefits

- ☐ greatest handling convenience due to an easy running, swivelling heat plate
- ☐ extra working clearance (approx. 60 mm space between heat sealing and upper plate)
- ☐ modern display for selection of language, working temperature (from 80 to 220 °C), pressing time (variable from 0 to 999,9 sec.) and setting of various parameters on three practical function keys allows for quick and easy operation
- ☐ integrated two-hand control for highest safety
- ☐ steady-going pressure adjustment and very even heat distribution

TRANS PRESS 21

WITH ONE WORKING PLATE

- ☐ Connection: 230 V, 50 Hz, 2000 W
- ☐ Width: 774 mm
- ☐ Height: 712 mm
- ☐ Deepness: 835 mm
- ☐ Space required: 770 x 700 mm
- ☐ Size of upper plate: 480 x 380 mm
- ☐ Weight: 105 kg

Trans Press 21

Art. no. 19999

- ☐ simple and convenient replacement of different heat seal plates – no tools required
- ☐ integrated safety mechanism by electronic heat seal release and automatic fault message: provides increased safety, prevents incorrect heat sealing
- ☐ maximum safety in the working process by complying with the latest equipment guidelines
- ☐ simple replacement of the teflon on the hotplate (teflon fixed outside of the heat pack for a fast changeover)

THERE'S SOMETHING FOR EVERYONE

From the first-class manual presses for daily use, through to pneumatic presses for professionals - you will find that we offer transfer presses for every use. The THERMOTEX transfer presses are the ideal solution for high-quality, fast and comfortable marking of professional and protective clothing, sportswear, leisure and promotion wear.

TRANS PRESS 1-S / 2-S

LARGE WORK SURFACE
IN HORIZONTAL OR
VERTICAL FORMAT

TRANS PRESS MINI

HANDY FORMAT

- ☐ large work surface (in horizontal or vertical format)
- ☐ ideal for transfer printing on large-format textiles
- ☐ also available with self-opening mechanism (Trans Press 2-S)

Connection: 230 V, 50 Hz, 2000 W
Width: 512 mm
Height, when open: 880 mm
Depth: 830 mm
Space required: 600 x 600 mm
Size of upper plate: 480 x 380 mm
Weight: 47 kg

Trans Press 1-S

Heat sealing surface (vertical) Art. no. 20048

Heat sealing surface (horizontal) Art. no. 20049

Trans Press 2-S (with self-opening mechanism)

Heat sealing surface (vertical) Art. no. 20002

Heat sealing surface (horizontal) Art. no. 20001

- ☐ handy format
- ☐ less weight
- ☐ smaller upper plate

Connection: 230 V, 50 Hz, 2000 W
Width: 512 mm
Height, when open: 830 mm
Depth: 800 mm
Space required: 600 x 600 mm
Size of upper plate: 380 x 300 mm
Weight: 40 kg

Trans Press mini

Heat sealing surface (horizontal) Art. no. 19998

TRANSFER PRESSES & ACCESSORIES

BETA CAP PRESS

IDEAL FOR PRINTING ON
HATS AND CAPS

LOWER PLATE-ACCESSORIES

1. LOWER PLATE WITH SILICONE /NOMEX
2. SILICONE PAD
3. TEFLON
4. NOMEX COVER

- ☐ Connection: 230 V, 50 Hz, 500 W
- ☐ Width: 280 mm
- ☐ Height, when open: 800 mm
- ☐ Height, when closed: 430 mm
- ☐ Deepness: 520 mm
- ☐ Space required: 280 x 470 x 730 mm
- ☐ Compression surface: 150 x 90 mm
- ☐ Weight: 15 kg

Beta Cap Press

Art. no. 15826

- ☐ technologically advanced and top quality handoperated transfer press
- ☐ compact and easy to handle, therefore ready for use everywhere
- ☐ large opening angle ensures there is plenty of working clearance
- ☐ special locking mechanism to hold cap in position during transfer

LOWER PLATE WITH SILICONE / NOMEX (1)

Type of machine	Art. no.	Size in mm

**DIRECT PRINTING /
DIRECT EMBROIDERY /
SUBCONTRACTING**
YOUR WORRY-FREE PACKAGE

To ensure you receive your employee clothing without worry: we patch your emblems onto the textiles!

At customer's request:

- ☐ patching
- ☐ direct printing or embroidery
- ☐ use of your own textiles or textiles from our portfolio

Relax! We will do the patching for you!

A child wearing a brown aviator helmet with goggles and a blue cape is sitting inside a cardboard box. The box is decorated with several travel-themed stickers: Moscow, London, Japan, New York, and Hong Kong. The child is looking out over a vast, scenic mountain landscape with rolling hills and dense forests under a blue sky with scattered white clouds. The box is placed on a wooden deck.

**We're looking forward
to your call!**
